DETAILED ACTION

Allowable Subject Matter

1. Claims 24-29 are allowed.

The following is an examiner's statement of reasons for allowance:

The references fail to teach, disclose, or suggest, either alone or in combination, the elongated body portion provided between the first and second end portions and defined between the front mating face and the rear terminating face, the elongated body portion having a predetermined length and a consistent width along the predetermined length, the width of the elongated body portion being less than the widths of the first and second end portions and the wall means being of generally uniform thickness between the front mating face and the rear terminating face along the predetermined length of the elongated body portion and in combination with the rest of the limitations in the base claim.

The Examiner is convinced by Applicant's arguments (Pages 4-6) regarding the combination of the Baxter et al. and Kameyama et al. references specifically not showing the limitations of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
